## Why choose SychemCHANGE?

**Cage change stations are the industry standard for performing cage changes and minor procedures.**

Units are designed to protect animals from the external cage environment and users from allergens, dander and potential pathogens.

SychemCHANGE utilises Active Airflow Technology to ensure a clean and protected environment.

### ✓ **Active Airflow Technology**

Protects animals from external pathogens and cross-contamination when performing cage changing and minor procedures.

### ✓ **Class-Leading Flexibility**

Designed as a dual access workstation, the unit is compatible with any size and type of rodent cages on the market.

SychemCHANGE features a fully reversible TRESPA® worksurface, available in either a fixed raised or lowered position.

### ✓ **Ergonomic Excellence**

SychemCHANGE offers the best height range on the market, making it suitable for any user. At the touch of a button, the electrically controlled legs can be seamlessly raised or lowered to maximise user comfort and simplify the cleaning process.

## Key Features

### Light Trace Technology

Sychem's unique light trace technology monitors the presence of light in your facility, shifting the task lighting from white to either red light mode, or 'off', depending on user preference. Light changes are recorded by the unit.

### Red Light Mode

SychemCHANGE features a red light mode as standard. When activated, it changes the unit's LED task lighting to red, and dims the screen brightness to a lower level. This feature prevents disruption to animals' sleep cycles.

### Intuitive Touch Screen

SychemCHANGE features a 5" colour touch screen with a user-friendly interface (UI) and universal icons. This large screen layout provides technicians with information at a glance, and quick access to controls.

*UI available in multiple languages.*

## Airflow Range

SychemCHANGE is part of our Airflow Range, a collection of five systems that also includes:

[Bedding Dispenser](#) →

[Waste Station](#) →

[Safety Cabinet](#) →

[Air Shower](#) →

## Standard Design

- Active Airflow Technology
- ISO Class 3 air quality
- H14 HEPA filtration
- Light Trace Technology
- Red light mode
- Electronic height adjustment with built in safety system
- Dual access
- Two cage lid holders
- Four plug sockets
- 5" colour touch screen
- Reversible TRESPA® worksurface
- Two side mounted handles

**Designed for Precision, Built for Protection**

SYCHEM **CHANGE**

## Optional Accessories

- ✓ TRESPA® shelves
- ✓ Clear-sided food hopper
- ✓ Automatic foaming hand sanitiser station
- ✓ USB sockets to replace standard plug sockets
- ✓ Rear cover for single-sided configuration
- ✓ Repositionable locking arms with either a; high-powered magnifying glass, phone holder or clamp

## SychemCHANGE Mini: Technical Information

### Dimensions

Dimension Description	Inches	mm
Width	52	1320
Height	65	1643
Raised Height	82	2073
Depth	30.39	772
Largest Cage (Height)	15.74	400

### Noise

Noise	db
Fans only	55

SychemCHANGE MINI is a compact version of our animal transfer station, designed for smaller spaces. It maintains the same safety, ergonomic, and airflow features as the full model, perfect for more confined environments.

*Looking for a different size?  
Customisable options available.*

Work Area	Width	Height	Depth
Level	908mm 38.58 inches	666mm 26.22 inches	686mm 27 inches
Dipped	908mm 38.58 inches	712mm 28.03 inches	686mm 27 inches

## SychemCHANGE XL: Technical Information

Dimensions		
Dimension Description	Inches	mm
Width	75.28	1912
Height	64.52	1639
Raised Height	82	2089
Depth	30.39	772
Largest Cage (Height)	15.74	400

Noise	
Noise	db
Fans only	55

Weight		
Weight	lbs	kgs
Unpacked Weight	661	300

Work Area	Width	Height	Depth
Level	1508mm 59.37 inches	666mm 26.22 inches	686mm 27 inches
Dipped	1508mm 59.37 inches	712mm 28.03 inches	686mm 27 inches

SychemCHANGE XL is the larger version of our original change station. It can accommodate cages of larger species, and additionally gives animal technicians more space to work.
